

Mandatory Reporting for Early Years Educators

CHILD PROTECTION (refresher)

IN-SERVICE FACE TO FACE WORKSHOP

We have an ever-increasing number of children and families facing complex challenges.

This interactive workshop, presented by the College for Australian Early Childhood Educators (CAECE), takes a targeted approach through a case study and individual and centre experiences, looking at child abuse and neglect, as well as family violence.

This workshop contains the most up to date information, including many legislative changes that occurred in 2016 and 2017. It provides support and information for mandated reporters by ensuring they are aware of their legal responsibilities to report known or suspected child abuse and neglect in Queensland, how to recognize indicators (red flags) of the different types of abuse and neglect, and a refresher on how to make a notification.

Pre-requisites: Completion of CAECE Mandatory reporting workshop or other equivalent Child Protection training.

Duration: 2 hours

Minimum numbers: 10
